INTERLIGHT MOSCOW: Facts and Figures 2008

On December 9th 2008, INTERLIGHT MOSCOW, the 14th International Trade Fair for Lighting, Light Technology & Intelligent Building Technology, opens its doors. More than 400 international exhibitors from 28 countries will present new products and technologies for the lighting market on 16,395 sqm of exhibition space. Despite the financial crisis INTERLIGHT MOSCOW could grow by 2,2 per cent.

Highlights of the agenda are the second **International LED Forum** and lectures dedicated to the topics of "Light & Architecture", with presentations of e.g. Paul Traynor, president of the PLDA, Karsten Winkels, German architect, and Rogier van der Heide, architect and light planner.

Opening hours:

9th December 2008: 12.00 p.m. – 6.00 p.m.
10th December 2008: 10.00 p.m. – 6.00 p.m.
11th December 2008: 10.00 p.m. – 6.00 p.m.
12th December 2008: 10.00 p.m. – 6.00 p.m.

2nd International LED Forum

LED technologies are developing with astonishing growth rates. For this reason INTERLIGHT MOSCOW presents the second International LED Forum, which is dedicated to the topic of "Russia's led road map". Difficulties of the installation of LED production in Russian companies will be discussed as well as problems of certificating LED products for the Russian market.

As key note speaker INTERLIGHT MOSCOW could win Prof. Fred E. Schubert from the renowned Rensselaer Polytechnic Institute, New York. He has made pioneering contributions to the field of compound semiconductors in particular to alloy broadening, delta-doping, resonant-cavity light-emitting diodes, enhanced spontaneous emission in Er-doped Si/SiO₂ microcavities, omni-directional reflectors for LEDs, and perfect anti-reflection coatings. His latest book has been translated into Russian.

December 10th, Moscow 2nd International LED Forum in the frame of INTELRIGHT MOSCOW

10.00	Official opening/ welcome note Prof. Aizenberg, Light House Bernd Fichtner/ Tanja Homtschik, organisers of INTERLIGHT MOSCOW -----
10.15	Evgenij Dolin, manager of the LED forum Introduction: LED Road Map
10.30-11.00	Prof Alexander Yunovich, Moscow State University Research and development of light-emitting diodes in Russia and in the world (results of 2008) Presentation of the Russian edition of the book "LED/ Светодиоды" (author: Prof. Fred E. Schubert)
11.00-11.30	Professor Fred. E. Schubert Light-Emitting Diodes – Looking back 100 years and looking forward to the next 10 years
11.30-12.00	Sergeij Polikarpov, Rosnanotech Initiatives of the state company "Russian Corporation for Nanotechnology" for developing the Russian LED industry
12.00-12.30	Michail Kiptik, Municipal Unitary Enterprise (Mossvet) Contemporary LED requirements for street and architectural lighting
12.30-13.00	LUNCH BREAK
13.00-13.30	Yefim Rosenberg, Russian Railways Corporation LED investment programme / Investment plans of the state company Russian Railways Corporation in the period 2009 - 2011
13.30-14.00	Griogrij Itkinson, "Svetlana-Optoelectronics" Enhancing the efficiency of production of semiconductor applications and their promotion in the Russian market
14.00-14.30	Nikolaj Bakin, Federal State Research Institute of Semiconductor Devices Application of LED systems developed at the State Research Institute of Semiconductor Devices, Tomsk
14.30-15.00	Mitch Sayers, CREE Europe GmbH LIGHTING CLASS LEDS IN GENERAL ILLUMINATION
15.00-15.30	Christian Graf, OSRAM Solid State Lighting – how vision goes reality
15:00-15:30	Uwe Sörensen, Philips lumileds Highpower LEDs Philips Lumileds. Technologies, applications and perspectives.
15.30-17.00	ROUND TABLE with DISCUSSION Problems of the introduction of LED lighting

About the INTERLIGHT MOSCOW

The Ost-West-Partner GmbH organises the INTERLIGHT MOSCOW since 1995. The INTERLIGHT MOSCOW takes place annually in the Expocentre in Moscow. It is the leading international trade show for the lighting industry in Russia and the CIS nations.

Press Contact:

The EMPOREX GmbH, a subsidiary of Ost-West Partner GmbH, handles the press relations for the INTERLIGHT MOSCOW. Please direct your questions and requests for image materials to:
